Paula-

This site should be placed in PENDING. All possible hazardous materials have either been removed when the facility was closed or covered when the facility was paved over by the Oakland Port Authority in 1978. If limitless funds were available, sample borings should be put down through this covering, but.....

Site should remain pending since there may be metals in the buried waste.

SUBJECT: EPA Review of PA for Abex Corp.

FROM: Michele Dermer

TO: Site File - Abex Corp.

I was asked to review the preliminary assessment prepared by DOHS and the subsequent EPA review by Brian Ullensvang (5-3-84) for the Abex Corporation Oakland site.

I concur with the recommendation that the Abex site be given a low priority for further action. There is no evidence that the site contains hazardous materials, however a sampling program should be undertaken to classify the materials which have been buried at this location.

TO: Site File - Abex Corp.

Although I will derive no personal gain from future actions at or concerning this site, I feel that this statement of clarification is needed, since the following relation could be construed as a possible conflict of interest.

My father is an officer of another subsidiary of the parent company to Abex Corp. Per the suggestion of Alexis Strauss, Chief, Superfund Enforcement Section, I have completed my review of this PA and request that I not be assigned any additional work concerning this site.
